Austin wants to be sheriff

Look out Tom Tramel, there may be a future sheriff in town.

Five-year-old George Jarvis Austin attends the Kindergarten Center and he wants to be a police officer or a sheriff when he grows up.

Son of Charlotte Hall-Austin, George has begun his school career with a positive attitude. "George is an enthusiastic learner and he is a well-liked and caring person," says one of his teachers.

His interests include T-ball and books, especially the Berenstein Bears series.

According to Principal Earl Watts, "George is a very smart child. He is totally involved in all classroom activities and loves school. With George's ability, I think he can accomplish his goals in life."

BIW Zone 4

Working toward, but Not yet hitting target goal of 600 daily units.

Question partly emerged, though I'd thought about previously, while injured (on the job) and with amended rotation. I realized (through observing 'takt time' I could fairly easily avg. 80-100 per hour (approx 35 secs 'takt time' when robot operating at optimum speed = about 102 per hour). That would easily produce over a 1000 units in a 12 hour period

Resource Maximization Strategy designed to help identify and bottlenecks. Not gospel, but get there. Iterations, and adjustments would be necessary.

Process Improvement - will improve process and rotation as well as information/data regarding various resources regarding machine repairs to consistently hit target

Quality Improvement - by better resources not just speed, but improvements are likely.

WWW.MER-CURY.COM

WELL WHEN MY BROTHER AND I WERE STARTING OUR FIRST COMPANY INSTEAD OF GETTING AN APARTMENT WE JUST RENTED A SMALL OFFICE AND WE SLEPT ON THE COUCH. WE SHOWERED AT THE YMCA, AND WE WERE SO HARD UP WE HAD JUST ONE COMPUTER SO THE WEBSITE WAS UP DURING THE DAY AND I WAS CODING AT NIGHT; SEVEN DAYS A WEEK, ALL THE TIME.

- ELON MUSK
